# 1			Product Category : 90922 Construct Latrine Latrine Bldg. 4104 Construct a separate latrine for building 4104 at Camp Shelby, Mississippi. This project will construct a male and female latrine of CMU block with standing seam metal roof at approximately 950 square feet. The facility will be painted to match the current buildings at Camp Shelby. The facility will be heated and cooled. Project will include drop ceilings with insulation, energy efficient LED lighting and energy efficient fixtures. A sewer system with a grinder pump station up to the septic tank system, field lines, underground power, and water line will also be included. The project will include site prep, materials, labor, and erosion control measures.		1.000	AU
