# 1			Product Category : 90922 Construct Medivac LandingPad Camp Shelby Modernization project for Rotary Wing Landing Pads, Paved (CTCD 11130) at the Troop Medical Clinic, Camp Shelby, MS. This project will include a modification of the existing pad (HCC00) to Limited Use Helipad standards by adding 25-ft concrete shoulders and an additional 25-foot grassed-earthen clear zone to meet the 150' clear zone requirement. This project will repair surface cracks, pressure clean, and reseal the helipad. Project will construct a 100'x100' standard helipad of concrete construction with 25-ft wide paved shoulders of concrete construction, and an additional 75-foot grassed-earthen clear zone to meet the 300' clear zone requirement. Both pads will include pilot controlled flush mounted lighting, have the circle H painted on the surface and construct one new lighted wind cone. Sidewalk will be added where required. Project will include supervision, equipment, materials, site preparation, erosion control measures and labor.		1.000	AU
